## BY TELEGRAPH

TO THE FREEMAN.

4 O'CLOCK, P. M.

New York, Oct. 6. The steamer Fulton, from Charleston bar afternoon of the 3d, arrived this morning. The rebel steamer Diamond was captured while trying to run the blockade of Savannah. She had a valuable cargo of salt-petre and liquors from Nassau.

Nothing new from Chattanooga.

A Morris Island letter of the 3d says our army is actively at work, but the navy is passive. A semi-circle of batteries have been erected on Morris Island and will soon be opened on the rebels. Satisfactory experiments have been made with Greek fire shells, and they will soon be introduced to the renewed attention of the rebels.

The Herald's Washington dispatch says, full official advices of a late date have been received at the Navy Department from Admiral Dahlgren. They show that neither Dahlgren or Gen. Gillmore is idle, but that they are pushing forward the preparations for a renewal of active and efficient operations. They are working cordially and heartily together, and the result of their co-operation will be witnessed before long in a manner which will convince Beauregard and his sympathizers that all the "barbarism" was not exhausted in the first shelling of the devoted city.

A Fortress Monroe letter of the 4th to the Herald says, an expedition on a large scale, consisting of artillery, cavalry and infantry, has been organized, and in conjunction with several army gunboats, started from here yesterday afternoon. The weather was all that could be desired. Its destination is unknown even to those participating in the enterprise. The troops left under sealed orders, which are not to be opened till they reach a certain point. A place of rendezvous has been appointed where the various commanders are to meet and adopt such measures as will ensure the success of the expedition. Gen. Foster planned the campaign. If the instructions are carried out no fears need be entertained of a promising and satisfactory issue. The rebels will be compelled to concentrate a large force to meet this expedition.

## HEADQUARTERS ARMY OF THE POTOMAC,

October 5.

Several shots were fired yesterday by a rebel battery across the river at one of our baggage trains while in motion. No damage was done. Three rebels came across the river last evening on a mule-stealing expedition. They had captured several when they were discovered and fired upon by one of our pickets. One was killed, and the other two escaped. The escaping parties fired on the picket and killed him. The weather is fine and the army is in splendid condition and spirits.

New York, Oct. 6. The steamship Cosmopolitan from Hilton Head on the morning of the 3d inst., at 9 o'clock, arrived this morning with 220 sick and wounded soldiers from Morris Island and Beaufort, S. C. The yacht Tortugas had arrived at Hilton Head from Tortugas, St. Augustine, and Fernandina, Fla. She reports no yellow fever.

The Herald's Washington dispatch says Col. Lowell of the 2d Mass. cavalry, commanding the cavalry brigade in front of the defenses of Washington, has removed his headquarters to Fairfax C. H. The instructions to his scouts and squadrons actively engaged in the pursuit of Mosby's men, are to burn every house where a rebel is found. This course has been adopted by Col. Lowell as the only means to rid Fairfax and Loudoun Counties of the daring marauders who have caused annoyance and committed depredations that have been tolerated too long.

A Newbern letter of the 30th to the Herald says that the gunboat Bomb Shell left Newbern a few days ago, under sealed orders, and made a reconnaissance of Pasquotank river, which empties into the Albemarle Sound, landing a boat crew near Elizabeth City. The men were captured by the rebels, when the captain opened a vigorous fire on the town, doing considerable damage.

The steamship Saxonia from Liverpool arrived this morning.

NASHVILLE, Oct. 6. An unusually degree of excitement prevails here to-day, in consequence of the rebel Gen. Forest, with 5,000 mounted men having made a raid on our line of railroad communication between this place and Bridgeport Chattanooga, yet this gives no particular alarm. The enemy can do but little injury to our line of communication. We have not only the force there to drive them back, but to defeat an immensely heavier force.

There is no need of fear for Gen. Rosecrans' success in holding his position at Chattanooga. He is too strong for the enemy to attack him with any show of success.

To-day skirmishing has been going on in the neighborhood of Murfreesboro. The enemy made an attempt to destroy a bridge of considerable importance. Very few were wounded and none killed. Some are inclined to think an engagement is going on at Chattanooga because the enemy is thus operating in the rear of Rosecrans, but I don't coincide with them. Unless the enemy is very desperate he will not attack Chattanooga. If he does there is every likelihood that he will be defeated.

New York, Oct. 6. The Times' Washington dispatch says a day or two ago the rebels made a vigorous attempt to cross the river at Germania mills with a force of 600 infantry as a storming party. One hundred of Gen. Buford's dismounted cavalry, who were on picket duty at that point kept the enemy at bay and finally repulsed them with severe loss.

The Tribune's Washington dispatch says the Russian fleet will probably stay in American waters until spring. The Admiral and his officers will visit Washington and the great West on private invitations. They will see our great foundry at Pittsburgh, and go as far West as St. Louis.

CINCINNATI, Oct. 6. Private advices from Chattanooga up to the 1st, represent that the army is in fine spirits and its position impregnable.

A special dispatch to the Commercial from Knoxville the 5th says our forces below have penetrated to the Hawassee river, the enemy retreating. The rebels have also fallen back above, Col. Carter being beyond Greenville to-night. Gold, 1 1/4 1-4.
